

WhatsApp Support Gateway - Video Recording Teleprompter

Silent-recording pacing guide with exact hold times per action for post-recording voiceover sync.

RECORDING TIPS & SYSTEM HIGHLIGHTS:

- **Phone Number Identity:** WhatsApp identifies callers by phone number. Customers never need to log in or create an account.
- **Phone Selector in Header:** Use the phone dropdown at the top to simulate different customers (Single Order: 15551234567, Multi-Package: 15557778899, New Customer: 15550000000).
- **Live Telemetry Dashboard:** The panel on the right shows response times (under 20ms), message security checks, bot logic, and live server logs.
- **Real-World Customer Scenarios:** Single order (1-tap), multiple packages (buttons), brand-new customer, gift/cross-phone security check, PDF returns, Shopify sync, and live human handoff.
- **Hold Times:** Perform each action, then keep the screen still for the indicated seconds before clicking the next step. This makes recording voiceover easy!
- Total video runtime: **~2 minutes 36 seconds** (156 seconds).

STEP 0: INTRO, PHONE IDENTITY & TELEMETRY DASHBOARD [■■ HOLD ON SCREEN: 16s]

■ ACTION:

Hover mouse over WhatsApp phone on the left, point to Simulated Phone in the top bar, then point to the Telemetry Dashboard on the right.

■ ON SCREEN:

Browser at localhost:8000/demo. Left: WhatsApp simulator. Top: Phone presets. Right: Live dashboard showing sub-20ms speed, security checks, bot state, and real-time server logs.

■■ SPOKEN SCRIPT (VOICEOVER FOR THESE 16s):

"Welcome to the WhatsApp Support Gateway demo. This system lets online stores handle customer support directly on WhatsApp with zero login hassle. The bot identifies shoppers automatically by their phone number. In our top bar, you can see our phone selector, which lets us test different customer numbers. On the right, our live dashboard shows everything happening behind the scenes: lightning-fast speeds under 20 milliseconds, message security checks, bot decisions, and live server logs."

STEP 1: SINGLE ORDER AUTO-LOOKUP (ZERO TYPING) [■■ HOLD ON SCREEN: 12s]

■ ACTION:

With simulated phone 15551234567, click the button in the phone: ■ Track Order (or type Track).

■ ON SCREEN:

Message sent. Blue checkmarks appear, typing indicator blinks, and the bot instantly returns tracking for order #ORD-1001 with carrier (FedEx) and status (In Transit).

■■ SPOKEN SCRIPT (VOICEOVER FOR THESE 12s):

"When a customer taps 'Track Order' or types a message, the bot checks their phone number against the store database. Notice the blue checkmarks and typing dots. The customer never had to type an order number or search through emails—their FedEx tracking details appear in one tap in under a second."

STEP 2: CONVERSATIONAL MEMORY & RETURN CHECK [■■ HOLD ON SCREEN: 10s]

■ ACTION:

Click chip: 2. Can I return it? (or type Can I return it? in the chat input).

■ ON SCREEN:

Bot understands 'it' refers to order #ORD-1001. Because the package is still in transit, it explains that an order must be delivered first before starting a return.

■■ SPOKEN SCRIPT (VOICEOVER FOR THESE 10s):

"The bot has conversational memory. When the customer asks 'Can I return it?', the bot knows exactly which order they mean. Because the package is still on the delivery truck, it politely explains that an item must be delivered before it can be returned."

STEP 3: CUSTOMER WITH MULTIPLE PACKAGES [■■ HOLD ON SCREEN: 14s]

■ ACTION:

Click purple chip: ■ Demo: Multi-Package
(or switch top dropdown to *Multi-Package: 15557778899* and tap [■ Track Order]).

■ ON SCREEN:

Bot finds 2 active packages for phone +1 555-777-8899 (#ORD-1004 Fitness Watch & #ORD-1005 Soundbar). It shows clickable buttons: [■ #ORD-1004] and [■ #ORD-1005].

■■ SPOKEN SCRIPT (VOICEOVER FOR THESE 14s):

"What happens if a customer has more than one package on the way? When we switch to a customer with multiple orders and tap 'Track Order', the bot finds both shipments automatically. Instead of getting confused, it presents simple buttons so the customer can choose which package to track."

STEP 4: 1-TAP PACKAGE SELECTION & LIVE TRACKING [■■ HOLD ON SCREEN: 10s]

■ ACTION:

Tap the interactive button: ■ #ORD-1004.

■ ON SCREEN:

Bot instantly displays DHL Express tracking details and estimated delivery date for the Smart Fitness Watch.

■■ SPOKEN SCRIPT (VOICEOVER FOR THESE 10s):

"Tapping package 1004 immediately pulls up the live DHL tracking details and estimated arrival date, with options to return or speak to support."

STEP 5: BRAND NEW CUSTOMER (0 ORDERS ON FILE) [■■ HOLD ON SCREEN: 10s]

■ ACTION:

In top dropdown, select: New Customer (0 Orders) (15550000000), click ■ Reset Session, then tap ■ Track Order.

■ ON SCREEN:

Bot replies: 'We could not find any active orders associated with your WhatsApp number. If you placed your order under a different number or email, please reply with your order number.'

■■ SPOKEN SCRIPT (VOICEOVER FOR THESE 10s):

"Now, what if a brand new customer messages us? If there are no orders linked to their phone number, the bot handles it gracefully. It lets them know no orders were found and invites them to enter an order number or connect with a human agent."

STEP 6: GIFT / DIFFERENT PHONE (PRIVACY PROTECTION) [■■ HOLD ON SCREEN: 12s]

■ ACTION:

In top dropdown, switch back to: Single Order (ORD-1001).
Click chip: 3. Track #ORD-1002 (Security Check).

■ ON SCREEN:

Customer asks for #ORD-1002, which belongs to another phone number. The security system blocks the details and asks for the last 4 digits of the phone number on that order.

■■ SPOKEN SCRIPT (VOICEOVER FOR THESE 12s):

"Sometimes someone buys a gift or uses a different phone to ask about an order. To prevent strangers from snooping on other people's packages, our security system steps in and asks for the last four digits of the phone number on that order."

STEP 7: 4-DIGIT VERIFICATION UNLOCKS ORDER [■■ HOLD ON SCREEN: 8s]

■ ACTION:

Click chip: 4. Verify: 6543 (or type 6543).

■ ON SCREEN:

Bot verifies the digits, confirms identity, and displays order #ORD-1002 status (Processing).

■■ SPOKEN SCRIPT (VOICEOVER FOR THESE 8s):

"When the customer types those four digits—6543—the bot confirms their identity, unlocks the order, and shows the latest status."

STEP 8: DELIVERED RETURN & INSTANT PDF SHIPPING LABEL [■■ HOLD ON SCREEN: 15s]

■ ACTION:

Click chip 5. Return #ORD-1003, then chip 6. Verify: 2233 (Get PDF).
Then click the PDF Document Card in the phone.

■ ON SCREEN:

Order #ORD-1003 is verified as delivered. Bot approves return and attaches a downloadable PDF label. Clicking opens the vector PDF return label in a new tab with a scannable barcode and instructions.

■■ SPOKEN SCRIPT (VOICEOVER FOR THESE 15s):

"For delivered orders, the bot handles returns completely on autopilot. It checks return eligibility, approves it, and creates a ready-to-print return shipping label with a scannable barcode directly inside WhatsApp."

STEP 9: LIVE SHOPIFY STORE SYNC [■■ HOLD ON SCREEN: 11s]

■ ACTION:

(Return to demo tab) Click chip: 7. Shopify #1001.

■ ON SCREEN:

Telemetry shows data pulled via ShopifyOrderAdapter. Bot displays live item names, prices, and fulfillment status directly from Shopify.

■■ SPOKEN SCRIPT (VOICEOVER FOR THESE 11s):

"The system also connects directly to Shopify. With a single setting, it syncs live products, prices, and shipping stages straight from the store's Shopify account."

STEP 10: HUMAN SUPPORT & AUTOMATIC BOT MUTING [■■ HOLD ON SCREEN: 12s]

■ ACTION:

Click chip: 8. Talk to Human (or type human).

■ ON SCREEN:

Session state changes to amber **ESCALATED_HUMAN**. Live Operator Station opens on the right.

■■ SPOKEN SCRIPT (VOICEOVER FOR THESE 12s):

"Whenever a customer prefers to talk to a person, they simply type 'human' or tap the button. The bot mutes itself immediately so it won't interrupt, and opens a live support station for human agents."

STEP 11: LIVE TWO-WAY CHAT & ZERO BOT SPAM [■■ HOLD ON SCREEN: 14s]

■ ACTION:

In phone input, type: Where is my refund? and send. (Notice bot stays silent).

In Operator Station on right, type: Hi, Agent Sarah here! Your refund of \$189.50 has been released. and click Send as Agent.

■ ON SCREEN:

Customer's message appears live in the Operator Station without any automated bot spam. Agent's reply appears in WhatsApp with an Agent Sarah badge.

■■ SPOKEN SCRIPT (VOICEOVER FOR THESE 14s):

"Notice that when the customer sends more messages, the bot stays completely quiet—no automated spam. Messages appear live on the agent's screen, and when the agent replies, their message appears instantly on the customer's phone."

STEP 12: RESOLVING AND RE-ACTIVATING THE BOT [■■ HOLD ON SCREEN: 7s]

■ ACTION:

Click button: Unmute Bot / Resolve.

■ ON SCREEN:

Operator Station closes. Session state turns back to green **ACTIVE_BOT**.

■■ SPOKEN SCRIPT (VOICEOVER FOR THESE 7s):

"Once the customer's issue is solved, the agent clicks 'Unmute Bot'. The session returns to automated bot mode, ready for future questions."

STEP 13: TEST SUITE & PRODUCTION RELIABILITY [■■ HOLD ON SCREEN: 12s]

■ ACTION:

Switch to terminal window and run: `uv run pytest`.

■ ON SCREEN:

All 103 automated tests pass green in under 1.6 seconds.

■■ SPOKEN SCRIPT (VOICEOVER FOR THESE 12s):

"Under the hood, this is built for production reliability. Running our automated test suite shows all 103 unit and integration tests passing in under two seconds."

Master Quick-Reference Cheat Sheet (With Wait Times)

Action (Click / Type)	■ ■ Hold Time	What Happens on Screen	Voiceover Script (To Read Aloud)
Hover mouse over WhatsApp phone on the left, point to Simulated Phone in the top bar, then point to the Telemetry Dashboard on the right.	16s	Browser at localhost:8000/demo. Left: WhatsApp simulator. Top: Phone presets. Right: Live dashboard showing sub-20ms speed, security checks, bot state, and real-time server logs.	"Welcome to the WhatsApp Support Gateway demo.
